

Royal Grass[®] Lush

summerly
fresh

Perfect for

- Green roofs
- Decorative gardens (e.g. front lawns)
- Green surfaces on balconies
- Around buildings
- Presentation purposes

Unique fibres with an unrivalled appeal

Since the beginning of this century, Royal Grass[®] has been focusing exclusively on artificial grass for landscaping. The brand has a reputation of being one of the most innovative brands in the world. Among other things, it has developed the V-shape and the revolutionary MiNT[®] technology. These innovations give the grass its unrivalled resilience, a natural glow and a unique softness.

Some fibres of Royal Grass Lush have a natural yellow brownish colour which give this artificial grass a warm, late summer look. This grass also looks extra lush as it is made with the innovative ReaDY[®] technology.

Additional advantage

A lush grass carpet with a natural growth direction and warm tint.

Colour

Bright green

Installation advice

To give the grass maximum stability, it is recommended to spread special dried silica sand in the lawn: approx 10 kg/m².
