

ROYAL GRASS®

Royal Grass® Seda

cool green

Perfect for

- Gardens for private or business use
- Balconies or roof terraces
- Public spaces
- Indoor applications
- Green spaces of hotels

Unique fibres with an unrivalled appeal

Since the beginning of this century, Royal Grass® has been focusing exclusively on artificial grass for landscaping. The brand has a reputation of being one of the most innovative brands in the world. Among other things, it has developed the V-shape and the revolutionary MiNT® technology. These innovations give the grass its unrivalled resilience, a natural glow and a unique softness.

A very cool quality: open, wild and not too 'soft'. Because the fibres stand a little bit further apart they each 'do what they like'. This gives your lawn a slightly obstinate feel.

Additional advantage

The grass has its own, special beautiful colour of green which gives the lawn a relaxed Indian summer vibe.

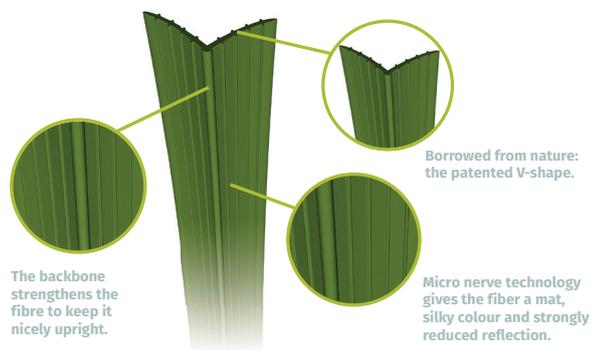

Colour

Indian summer green

Installation advice

To give the grass maximum stability, it is recommended to spread the lawn with special dried silica sand: approx 5 kg/m².

MiNT® TECHNOLOGY
reduced reflection
